

Applicant: N. Verduijn, et al
Serial No: Unassigned
Our Docket: 294-116 PCT/US
Page 3

8. (Amended) A method according to claim 1, wherein as main carrier a page from a book shaped identification device is used.

9. (Amended) A method according to claim 1, wherein the carrier and/or the main carrier are heated under pressure to a temperature above 100°C, preferably more than 150°C and in particular more than 200°C.

12. (Amended) An identification device according to claim 10, characterized in that it is a passport or driver's license or like personal identification means, wherein at least one image is a portrait fingerprint or comparable personal identification means.

REMARKS

In order to place the present application in condition for examination in the U.S. Patent Office, Applicant has amended the Specification and Claims to conform to U.S. practice. No new subject matter has been introduced as a result of this Amendment. Claims 1-12 remain in the application for purpose of prosecution.

As a result of this Amendment no additional fees should be assessed as a result of filing multiple dependent claims. Therefore, since new matter has not been introduced as a result of this Amendment, entry hereof and examination and favorable consideration are
